DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Remarks, filed 4/20/05, have been fully considered and are persuasive. The rejection based on 35 U.S.C Section 102(e) of the previous office action is withdrawn because the application 10/718,236 and this present application are commonly owned at the time the claimed invention was made and the present application was filed after November 29, 2000.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: claims 2-15 are allowed because the prior art fail to disclose or suggest:

In regarding to claims 2-10,12-14, a tissue connector assembly comprising in combination with other limitations of the claims, at least one needle releasably attached to a fastener through a suture and a restraining device coupled to the fastener for restraining the fastener towards an open configuration;

In regarding claim 11, a tissue connector assembly comprising in combination with other limitations of the claim, a fastener, a first needle attached to a first end portion of the fastener, a second needle attached to a second end portion of the fastener and a restraining device coupled to the fastener for restraining the fastener towards an open configuration.

In regarding to claim 15, a tissue connector assembly comprising in combination with other limitations of the claim, at least one restraining device coupled to a fastener

Art Unit: 3731

for restraining the fastener towards an open configuration and wherein the at least one restraining device comprising a lock releasably engaging a coil surrounding at least a portion of the fastener and wherein engagement of the lock with the coil biases the fastener in the open configuration.

Golden et al. (6,695,859) disclose a tissue connector assembly as claimed. However, the prior art and the present application are commonly owned at the time the invention was made. And the instant application was filed after November 29, 1999.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
